## Fuji TEMP LT

Specially designed for long-term temporary cementation. Thanks to its balanced formulation, it is very convenient during application and provides a stable retention whilst assuring the future safe removal of indirect restorations. Besides presenting optimized handling and physical properties it counts on the well-known safety offered by glass ionomer materials.

- Pleasant Handling
- Reliable Retention
- Secure retrievability

**GC900615** **Promo Pack**  
Contains: 2 Paste Pak Refills and a Dispenser.

Deal Price  
£80.95

## Fuji IX GP A3: 1-1 Pack

The packable non-sticky consistency makes it ideal to be used in Class V, I & II restorations, as base or as core build-up material. The genuine glass ionomer properties, in combination with the ease of use, ensure that this can meet all your demands on modern restorative materials.

**GC100096** **Intro Pack**  
Contains: A3 Powder 15g and 6.4ml Liquid.

Deal Price  
£43.50

## Fuji II LC Improved Powder and Liquid

Light-cured glass ionomer restorative.

### Characteristics and benefits:

- Small particles offering excellent aesthetics and polishability
- Higher filler loading for significantly improved abrasion resistance
- Good radiopacity to facilitate post-operative diagnosis
- Self-adhesive and hydrophilic
- Available in 11 Vita® shades.

**Powder Refill** 15g

**Liquid** 6.8ml

Deal Price

## OptiBond Solo Plus

Total-etch, single-component dental adhesive. A single dose bonding agent for virtually every clinical application. Ethanol-based, 15 % filled with our proprietary 0.4 µm filler, Solo Plus actually reinforces dentine tubules at much greater depths than unfilled or «nano» filled systems. This means better long term stability and outstanding bond strengths with direct or indirect applications.

**Deal Price**  
£52.95

KER29692 Bottle Refill, 5ml

## Lignospan Special

2% lidocaine with 1:80,000 epinephrine injection solution.

- Lidocaine is the Gold Standard in dental analgesia.
- No-methylparaben formulation to avoid allergic reactions on sensitive patients.
- Terminal sterilization of product/ cartridges for safe use.
- **100 % Latex-free plungers and seals.**

**Deal Price**  
**£18.10**

DEP0500 2.2ml

DEP0495 1.8ml

## Scandonest

- No-methylparaben formulation to avoid allergic reactions on sensitive patients.
- Terminal sterilization of product/cartridges for safe use.
- **100% Latex-free plungers and seals.**

**Deal Price**  
**£18.10**

DEP0510

**3% mepivacaine injection solution**

Formulation without vaso-constrictor medical situations.

DEP0505

**2% mepivacaine with 1:100,000 epinephrine injection solution.**

Mepivacaine is the preferred molecule for short procedures and periodontal treatments.

## Septanest 2.2ml

- Fast onset to avoid delay before effective analgesia is achieved.
- No-methylparaben formulation to avoid allergic reactions on sensitive patients.
- Terminal sterilization of product/ cartridges for safe use.
- **100% Latex-free plungers and seals**

**Deal Price**  
**£19.75**

DEP0491 1:100000

4% articaine with 1:100,000 epinephrine injection solution. High epinephrine concentration to improve blood control on the procedure's site. Milar label covered glass cartridges to minimize risk of wound ion the event of a cartridge breakage.

DEP0493 1:200000

4% articaine with 1:200,000 epinephrine injection solution.

## Septoject Original

Sterile single use dental needle. Box of 100.

- Less trauma to the tissue achieved through a triple-bevel needle, a polished & siliconised canula and an excellent flexibility of the needle.
- High grade surgical stainless steel tubing to reduce risk of breakage.

DEPSEPT001

27G Long

DEPSEPT002

DC SD x 50  
VOC1164

## Bifix SE Set

Dual-curing self-adhesive composite-based luting system.

- No etching, no bonding
- Short intra-oral setting time
- Easiest excess removal
- Very good adhesion to all materials
- Very low water solubility
- No mixing mistakes
- Excellent biocompatibility

VOC1784

Set

Contains: 3 x 5 g QuickMix syringes in the shades universal, transparent, white-opaque, mixing tips type 14, mixing tips type 15 and intra-oral tips type 1

Deal Price  
**£99.95**

Bifix SE Refill

## Grandio SO Heavy Flow

Flowable universal nano-hybrid restorative material. Highly viscous.

- Increased stability in comparison to conventional flowables, i.e. no undesirable leakage
- Can be applied with pinpoint accuracy with complete wetting of the cavity walls
- Physical properties superior to those of various other sculptable materials - e.g. hardness, stability, abrasion resistance and very high filler content (83 % w/w)
- Ideal for proximal and cervical areas
- Precision dosing without excess for timesaving work
- Simplified filling of undercuts, approximal boxes and paragingival areas
- Ideal for use in combination with GrandTEC

VOC2680

Set

Contains: 5x2g syringe (A2, A3, A3.5, VC, A5 and WO), shade guide and accessories.

## Cavex Bite&White

Is a professional dental whitening system. It is an effective, fast and easy-to-use tooth whitening product.

- Ideal gelling characteristics; easy to dispense and stays in place
- Contains water to prevent teeth from dehydration
- 16% carbamide peroxide; stable and effective
- Contains potassium nitrate to prevent sensitivity
- Contains sodium fluoride for easily remineralisation and for restoring the micro hardness
- Mint flavoured
- A refill is available which is sufficient for ten days.

DAVCAV0001

Kit - Pack of 5

Contains: 2x3ml syringes, 1 tray cassette, 1 shade guide and Instructions for use.

DAVCAV0002

Refill

Contains: 2 x 3ml syringes.

**Deal Price**  
**£81.95**

**Deal Price**  
**£9.95**

## Clearfil S3 Bond

S3 Bond is an all-in-one light-cured bonding system that allows simultaneous treatment of both dentin and enamel using one liquid.

- 7th Generation bonding technology
- 35 seconds from start to finish in 3 easy steps - just one coat required
- Water/ethanol base composition negates need for wet bonding technique
- Significantly less microleakage
- Prevents post operative sensitivity
- Unique Molecular Dispersion Technology prevents phase separation
- Cost effective - up to 200 applications

DAVKUR0120

Kit

Contains: 1 bottle - 4 ml, brush holder, 50 brushes, mixing dish and light blocking plate.

**Deal Price**  
**£73.95**

## Clearfil SA Cement

Is a self-etching, self-adhesive, dual-cured resin cement with fluoride release.

- Exceptional handling, especially with excess cement removal
- Very low technique sensitivity, with consistent bond strength even to over dry and wet dentin/enamel
- High bond strength, for any restorations including zirconia & alumina
- Good marginal sealing
- Low solubility and low film thickness, for optimal Cementation
- Simple to use, self-adhesive, no primers, silane or bonding agents

**Deal Price**  
**£62.95**

**Buy 2 get 1 FREE**

## Sylc Therapeutic Powder

Effective treatment for hypersensitivity.

- Rebuild eroded tooth surfaces
- Cleans more effectively (Including interproximally)
- Brighten by up to 4 shades
- Patient friendly procedure
- Researched and developed at Kings College and Imperial College, London
- To read the science visit [www.osspray.com](http://www.osspray.com)

## Luxatemp Star

Bis - acrylic temporary crown and bridge material. It can be used for temporary crown and bridges, inlays and onlays, veneers and long-term temporaries.

- Substantially higher flexural strength and fracture toughness
- Improved initial hardness
- Great adaption and fit
- Outstanding esthetics and colour stability
- Faster Curing
- Reliable elastic phase
